

Channel letter bending machine quotation

Model	Description	Price
DH-6120	Professional in manufacture Stainless Steel,Galvanize,and some Flat Aluminum	USD 5200/Set

Technical Data

Applicable materials	Stainless Steel,Galvanized iron,Flat Aluminum
Control method	PC Control
Function	Automatic feeding,notching and bending
Material thickness	Stainless Steel:0.4-1.0mm Galvanized iron:0.4-1.2mm Flat Aluminum:0.3-1.5mm
Material width	≤120mm
Bending radius	≥10mm
Power	≤2000W
Motor	2 Pcs Stepper motors,2 Pcs servo motors
Voltage	220V, 60HZ,1P(or customized)
Colour	Gray+Green(or customized)
Size	1780*780*1380mm
Weight	350Kgs
Service	Engineers available to service machinery overseas

Main parts

Feeding & Notching

SS Blade

Bending Part

Control Box

Tool Box

Applicable materials and samples

Flat aluminum

Stainless Steel
